

Free Professional Development for Early Childhood Staff in Carnarvon

We are delighted to facilitate the final session on a series of Professional Development sessions for early-years educators and leaders in Carnarvon. This training is made freely available via the support of the State Government's Royalties for Regions program and the Department of Communities.

Workshops are open for registration (free, but required) at <https://rypple.org.au/early-childhood>

Phase 3

Individual Planning and Highly Intensive Support Strategies for Children with Exceptional Needs

- Additional strategies for supporting children with trauma backgrounds, disability or problem behaviour:
 - Teaching self-regulation, and including sensory supports
 - Social skills instruction for children with self-regulation needs, social difficulties and disability. Specific strategies including social skills curriculum and stay, play, talk strategy (Tier 2)
 - Highly intensive individual support planning (Tier 3) utilising the Prevent, Teach, Reinforce structure for young children and how this can be used for children at risk of exclusion

If you have not been able to attend previous sessions, you are still more than welcome, and will benefit from the Phase 3 training.

All resources from the earlier sessions - slides, handouts and videos – can be found at <https://rypple.org.au/early-childhood-pbis>

Videos have been designed for easy use – they are each around 15 minutes long and are ideal for staff meetings or for self-paced professional learning.

We are able to provide training at your service – this can be formally, if you are able to release staff for the day or a few hours, or it can be informally – we are happy to have conversations with service leaders and staff throughout the day.

We will be in Carnarvon on Friday the 22nd of November, and can be at your service from 10am, until about 4:30pm

We look forward to seeing you!
