

# **School Wide Positive Behavioural Interventions and Supports**

## **Professional Learning WA Schools**

---

# **2021 - 2022**

Dr Sharonne Telfer and Jennifer Payne from Rypple will be available to train school-based teams to implement School Wide Positive Behavioural Interventions and Supports (SW-PBIS).

We invite School leaders to attend an online information session about the training and how this can work most efficiently in their schools. Click [here](#) to view dates and register to receive a Zoom link or go to <https://rypple.org.au/events/>

### **What is SW-PBIS?**

**School Wide Positive Behavioural Interventions and Supports is a whole school approach to increasing students social, behavioural, and academic success. It is used by over 30000 schools in the US and around 2000 schools across Australia.**

### **The Center on PBIS describes it this way:**

“Positive Behavioral Interventions and Supports (PBIS) is an evidence-based three-tiered framework for improving and integrating all of the data, systems, and practices affecting student outcomes every day. It is a way to support everyone – especially students with disabilities – to create the kinds of schools where all students are successful.

PBIS isn't a curriculum you purchase or something you learn during a one-day professional development training. It is a commitment to addressing student behavior through systems change. When it's implemented well, students achieve improved social and academic outcomes, schools experience reduced exclusionary discipline practices, and school personnel feel more effective.”

### **Who is SW-PBIS for?**

**Any schools who want to improve student behaviour, engagement with learning, increase inclusion of students with disability or from diverse backgrounds and improve mental health!**

## **What would it look like if we did decide to do SW-PBIS?**

Our five-day training guides school teams through the process of designing their Tier 1 (supports for all students) interventions and supports for all staff to implement the school-wide system.

- A representative team (about 6-10 staff per school) will attend (typically face to face, but there is potential to use online training), in which they will get the knowledge and resources to build all the Tier 1 systems over the course of one school year.
- The team will also get all the resources they need to run “mini PL’s” with their whole school staff.
- During each of training days the team will get a clear idea of what to do and how to implement each of the Essential Components of SW-PBIS. The training is focussed and interactive, with work time within training and a clear list of tasks to complete before the next session.
- We will then support your team through the process of launching SW-PBIS and provide technical assistance and problem solving as required.
- We encourage schools to work in networks as we will be supporting schools with coaching and technical assistance throughout the training year.

## **Training Outline for WA Schools**

**Day 1:** Understanding SW-PBIS, developing common philosophy and purpose, establishing big 5 data collection systems

**Day 2:** Developing clear and consistent behaviour expectations schoolwide

**Day 3:** Supporting staff to teach the social behaviour curriculum

**Day 4:** Developing systems for consistent and effective responses to behaviour – encouraging expected behaviour and responding to behaviour errors

**Day 5:** Supporting staff with Effective Teaching and Learning Practices, finalising SW-PBIS “launch” plans, and using data based decision making

## Need more information on SW-PBIS...

### Reading Materials:

### I think this sounds good, but I would like more information...

- Email us [info@rypple.org.au](mailto:info@rypple.org.au) to schedule a free online information session for School and Diocese leaders.
- This session will provide more details about SW-PBIS, training content, time requirements for schools and potential costs.
