Planning

SMART Goal: (Specific, Measurable, Realistic, Achievable and Time-bound)

What do I want to seek feedback on? Who will be able to provide the feedback?

- Clarify why you are seeking particular feedback and to communicate to the person giving you feedback what you want them to focus on

Note down which aspect of your teaching practice you would like to receive feedback on.

Who will you seek feedback from?

*** See classroom procedures and routines classroom snapshot tool.**

Some key principles need to be agreed on prior to each observation session

1. Identify on the areas of your practice that you would like to be the focus of the observation.
2. Note any relevant information that would aid the observer (e.g., lesson plan, teaching objectives).
3. Observer to focus on specific examples and observable behaviours.
4. Determine how and when feedback will be given.
5. Agree on confidentiality. How openly will observations be discussed with peers?
6. Observation does not have to be live. To make it easier, you can film the lesson and let others observe your practice based on the film.
7. You can also use the recording for your own self-reflection.
