

Teaching Classroom Behaviour Expectations and Rules

Intentional Teaching

If You Want It, Teach It!
 If a child doesn't know how to read, *we teach*.
 If a child doesn't know how to swim, *we teach*.
 If a child doesn't know how to multiply, *we teach*.
 If a child doesn't know how to drive, *we teach*.
 If a child doesn't know how to behave,
 we.....teach?punish?

Why can't we finish the last sentence as automatically as we do the others?

Tom Hemer (NASDE President) Counterpoint 1998, p.2

Rypple www.rypple.org.au

- Educators who engage in intentional teaching recognise that learning occurs in social contexts and that interactions and conversations are vitally important for learning.
- They use strategies such as modelling and demonstrating, open questioning, speculating, explaining, engaging in shared thinking and problem solving to extend children's thinking and learning.

Teaching Behaviour

- Introduce the expectation and rule during a neutral time.
- Include a rationale (why is this skill important).
- Show examples and non-examples
- Provide repeated opportunities to practice
- Acknowledge children who demonstrate the expected behaviour.
- Precorrect and review as often as necessary

Four Stages of Learning

Acquisition: new skill or concept

Fluency: the ability to immediately use the skill or concept without a prompt

Maintenance: continuing to use the skill or concept over time

Generalisation: applying the skill or concept to new situations, people, activities, ideas, and settings
